International Journal of Geographical Information Systems

Taylor & Francis, London, Washington, DC

Contents of Volume 5

Number 1

Special Issue

GIS in Developing Nations

Editorial. J. T. Coppock and S. C. Guptill 1

Preface. GIS in developing nations. D. R. F. Taylor 3

The development and applications of geographic information systems for urban and regional planning in the developing countries. A. G.-O. Yeh 5

GIS in Africa: problems, challenges and opportunities for co-operation. D. A. Hastings and D. M. Clark 29

Is GIS appropriate technology? L. S. Yapa 41

Spatial information for resource management in Asia: a review of institutional issues. J. M. Fox 59

The establishment and application of the geographic mapping database by city/county unit in China. Liu Yue, Liang Zhang, Chen Xiaogang and Zhou Yingming 73

An incremental approach for establishing a geographical information system in a developing country: Saudi Arabia. K. M. Al-Ankary 85

The feasibility of a land information system for Belize, Central America. R. F. Hyde 99

Resource utilization and regional planning information systems (RURPIS) in Botswana. M. Nkambwe 111

Monitoring grasshopper and locust habitats in Sahelian Africa using GIS and remote sensing technology. G. G. Tappan, D. G. Moore and W. I. Knausenberger 123

Development and application of global databases: considerable progress, but more collaboration needed. D. A. Hastings, J. J. Kineman and D. M. Clark 137

Conference Report. International Conference on Geographic Information Systems Applications for Urban and Regional Planning. J. S. Edralin 147

Forthcoming events 155

Number 2

Editorial. J. T. Coppock and S. Guptill 159

Point-set topological spatial relations. M. J. Egenhofer and R. D. Franzosa 161

Utilizing discriminant function analysis with a geographical information system to model ecological succession spatially. K. Lowell 175

Modelling soil map-unit inclusions by Monte Carlo simulation. P. F. Fisher 193

Fuzzy reasoning in the development of geographical information systems. FRSIS: a prototype soil information system with fuzzy retrieval capabilities. V. J. Kollias and A. Voliotis 209

Remotely-sensed data as an information source for geographical information systems in natural resource management: a review. C. M. Trotter 225

The impact of geographical information systems on the role of spatial data libraries. P. Lai and C. F. Gillies 241

Book reviews 253

Forthcoming events 261

Number 3

Editorial. J. T. Coppock and S. Guptill 265

Comparison of existing methods for building triangular irregular network models of terrain from grid digital elevation models. J. Lee 267

Modelling accessibility using space-time prism concepts within geographical information systems. H. J. Miller 287

Organizational issues in the development of geographical information systems: a case study of U.S. Army topographic information automation. D. J. Peuquet and T. Bacastow 303

Integrating multi-criteria evaluation with geographical information systems. S. J. Carver 321

Taxonomy for surveying the use and value of geographical information. H. W. Calkins and N. J. Obermeyer 341

Tactile-map output from geographical information systems: the challenge and its importance. M. R. C. Coulson 353

Determination of rasterizing error: a case study with the soil map of The Netherlands. A. K. Bregt, J. Denneboom, H. J. Gesink and Y. Van Randen 361

Forthcoming events 369

Number 4

Editorial. J. T. Coppock and K. E. Anderson 371

Designing a personal guidance system to aid navigation without sight: progress on the GIS component. R. G. Golledge, J. M. Loomis, R. L. Klatzky, A. Flury and Xiao Li Yang 373

A new method for the characterization of topographic surfaces. B. Falcidieno and M. Spagnuolo 397

Analyses of visibility sites on topographic surfaces. J. Lee 413

Use of an expert system to map forest soils from a geographical information system. A. K. Skidmore, P. J. Ryan, W. Dawes, D. Short and E. O'Loughlin 431

Diffusion of geographic information innovations. H. J. Onsrud and J. K. Pinto 447

Comparative evolution of statewide Geographic Information Systems in Ohio. M. N. DeMers and P. F. Fisher 469

Book review 487

List of referees 489
